

K.ON

Expandable Controller with 88 Hammer Action Keys

K.ON is our expandable USB controller keyboard with 88 hammer action keys.

Equipped with a stable aluminium cabinet, K.ON is not only stylish, but perfectly optimized for professional usage live on stage or in any studio environment. Various faders and dials as controllers are provided, allowing remote control of software and hardware synthesizers. K.ON has a total of 4 expansion slots, compatible with existing synth modules from other vendors.
