

MAYA44 USB

4-in/4-out USB Audio Interface

MAYA44 USB is a powerful, yet affordable, USB audio solution for home recording - a perfect solution for mobile live and recording applications!

Besides standard recording and playback functionality, MAYA44 USB provides everything that is needed for professional music production. In its compact case MAYA44 USB provides 4 analog input and 4 analog output channels with RCA connectors and a combined optical S/PDIF digital output / stereo headphone output.

With support for ASIO 2.0, CoreAudio and MME / WDM, MAYA44 USB is compatible to all major music and DJ applications like Cubase, Logic, Sonar, Reason, Reaktor, MixVibes, Traktor DJ Studio, BPM Studio and much more.

Please note that MAYA44 USB has been discontinued and is now replaced by the newer MAYA44 USB+.
