

SW8000

Powered 8 1/4" Monitoring Subwoofer

SW8000 becomes easily an essential ingredient of various monitoring system setups. Though the nEar05 can provide sufficient bass frequency response, adding a SW8000 subwoofer will bring massive low frequency power to your mix whether you are working on a 2.1 monitoring system or a 5.1 surround environment.

Features

- 120W amplifier
- speaker: 20,9 cm - magnetically shielded
