## Where can I find the Windows driver for KeyControl 25 XL?

original release: 2012-04-30 | ID: KB00048EN

KeyControl 25 XL does not require any special driver for Windows XP, Windows Vista, Windows 7, Windows 8/8.1 oder Windows 10.

KeyControl 25 XL is a so-called "Class Compliant" device which means that it works with the default drivers that are included in Windows. To use them, simply connect the keyboard with the USB port of your PC and you can start using it in your applications.
