ESP1010 cable length (to breakout box)

original release: 2012-07-31 | ID: KB00101EN

The length of the cable between the ESP1010 PCI card and breakout out box is aprox. 2.1m. Please note that this is a special 44pin cable that has been manufactured for ESP1010 usage only and cannot be replaced by a standard cable. ESI does not offer a longer cable as option.
