ESP1010e cable length (to breakout box)
original release: *2012-07-31* | ID: *KB00102EN*

The length of the cable between the ESP1010e PCIe card and breakout out box is aprox. 1.5m. Please note that this is a special EDI-II cable that has been manufactured for ESP1010e usage only and cannot be replaced by a standard cable. ESI does not offer a longer cable as option.
