Does KeyControl 25/49 work with Windows 8/8.1?

original release: *2013-03-08* | ID: *KB00121EN*

We do not offer Windows 8 or Windows 8.1 drivers for KeyControl 25 and KeyControl 49 . The products have been discontinued several years ago, are now considered legacy items and the ongoing driver development has been discontinued. Several users however reported that our drivers for Windows 7 are also working under Windows 8 and 8.1. We encourage you to check this on your system, however we cannot provide technical support for this combination.

KeyControl 25 XL , KeyControl 25 XT , KeyControl 49+ , KeyControl 49 XT and KeyControl 61 XT are not affected by this and work with Windows 8 / 8.1.
