Knowledge Base

Presonus Studio One integration for Xjam

original release: *2022-11-11* | ID: *KB00320EN*

Xjam smoothly integrates into Studio One from Presonus. With the release of Studio One version 6 Xjam easily finds its way into the Studio One environment. When plugged in, Xjam is ready to use in no time and its 6 endless encoders can be mapped using Studio One's Control Link function for immediate sound tweaking or parameter editing.

Xjam's encoders have been mapped via Studio One's Control Link function:
